

# SR311 U20 PARTS

## SR311 Reinforced Mission Mount

The insulator uses reinforced rubber to prevent vibration of the shift lever, enabling smoother shift changes.

Compatible with: SR311 (U20 / 2000cc)

Price: ¥15,000

## U20 Engine Mount (Genuine)

An important part for absorbing engine vibrations. If the rubber deteriorates or cracks, it needs to be replaced.

price ¥4,220 / left and right set

## SR311 Radiator hose (mesh)

Specifications: Reproduction of the original mesh specifications

Price: Upper hose ¥3,000 Lower hose ¥4,000

## SR311 heater hose

Rubber products are prone to cracking and leaking due to deterioration over time, so regular inspection and replacement are required.

price ¥7,610 /set

¥2,300 (Small) ¥1,260 (Medium) ¥4,050 (Large)

## U20 Thermo housing & cover set

Among all the water-related parts, the thermo housing and thermo cover, which are the most susceptible to corrosion and damage, have been reproduced.

Price: ¥17,000/set

\*Sensor nut and gasket included

Thermo housing bolt set

Price: ¥600/2-piece set \*Total length 65mm Nut and washer included

## U20 Water Pump

We recommend replacing this part early as it is prone to problems such as rising water temperature due to corrosion of the fins and water leakage from the mechanical seal.

Price ¥85,500

## SR311 Radiator & Reservoir Tank Cap

SR311 Radiator cap

price: ¥6,000

reproduction of the discontinued radiator cap. It plays an important role in sending coolant to the reservoir tank.

SR311 Reservoir Tank Cap

price: ¥2,710 \*Genuine Nissan parts

Note: This product does not have a pressure relief valve. Do not open when hot.

## U20 Cylinder block plug (with flange)

Diameter 35mm (cylinder block side set of 5)

Price: ¥1,250 / 1SET

¥250 / 1 piece

## U20 Cam Bracket Stud Kit

This part is necessary when grinding the top surface of the cylinder head to correct distortion.

Price: ¥4,000 / SET

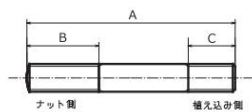

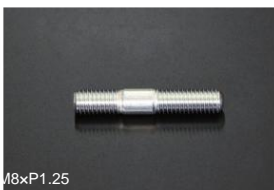

## U20 SOLEX Rubber Insulator

Specifications: Absorbs engine vibrations and prevents cracks in the intake manifold

Price: 1 set ¥31,840/4 pieces Single item ¥7,960/1 piece

## U20 IN, EX manifold stud bolt

A Total length B Screw length C Screw length Required quantity Price ¥218,500 45 6 ¥220 ¥47 6 ¥250 13.5 20 13.5

## U20 Drain bolt with magnet

This drain bolt uses a neodymium magnet that exerts a strong magnetic force. It effectively removes impurities (iron powder) floating in the oil, improving the durability of the engine.

Price: ¥2,500

## U20 Yoke (Manifold washer)

This is a 6mm thick washer used where the IN manifold and EX manifold are fastened together.

Price: ¥560/4pcs set for 1 unit ¥140/1pc

## SR311 Fender Mirror (Early Model)

Note) For later models, the mounting hole diameter is larger, so it cannot be installed as is.

Price: 1 unit ¥100,200 /SET

Single item: ¥50,100/1 piece
