SR311 SP311 Master

Cylinder, Seal Kit, Release Cylinder, Suspension

Brake master cylinder

This is a faithful reproduction of the original part.
Because it's an assembly product, it provides stable pedal feel and braking force, enhancing safety and security.

Compatibility: SR311
SP311 (May 1967 - 1970)
Size: 3/4
price: **¥59,000**

*For left-hand drive vehicles, it's a bolt-on installation. For right-hand drive vehicles, please replace the push rod with the current part.

SR311 Hydraulic Gauge Hose

This is a bypass hose that runs from the cylinder block to the hydraulic gauge steel pipe.
Unlike the genuine rubber hose, this is a reinforced type assembled with a stainless steel mesh hose covered with a black cover.

Price: **¥10,000**

*Hose fixing parts are not included.

Clutch master cylinder

This convenient rod-adjustable type allows you to change the clevis position to match the pedal height.

Compatibility: SR311 SP311
Size: 5/8
Price: **¥23,000**

Clutch Master Repair Kit

Part Number: SX55005
Size: 5/8 (for Nabco)
Compatibility: SR311/SP311
Price: **¥4,000**

Clutch release repair kit

Part Number: SX55016
Size: 3/4
Compatibility: SR311/SP311
Price: **¥3,000**

rear brake cylinder seal kit

Part Number: SX56003
Size: 13/16
Compatibility: SR311/SP311
Price: **¥6,000**

rear brake cylinder seal kit

Part Number: SX56006
Size: 3/4
Compatibility: SR311/SP311
Price: **¥6,000**

front caliper seal kit

Product number: FC-73425
Compatibility: SR311
Price: **¥3,960**

Standard clutch release cylinder

Compatibility: SR311/SP311
Size: 3/4 (Manual adjustment)
Price : **¥14,040**
(Updated 2026.11.04)

high-capacity clutch release cylinder

Compatibility: SR311/SP311
Size: 13/16 (Manual adjustment)
Price: **¥22,500** (Updated 2026.04.09)
*Reduces pedal pressure by approximately 20%

Clutch hose (standard part)

Compatibility: SR311/SP311
*Copper washer
included Price : **¥4,410**
(Updated 2026.11.04)

Clutch fork boots

Compatibility: SR311/SP311 (late model)
*For 5-speed transmission
Price: **¥4,000**

Shift lever boot

Compatibility: SR311 (all vehicles)
SP311 (Late Model)
Price: **¥570**

SR311/SP311 Front Brake Rotor

This is a reproduction brake rotor that accurately replicates the distinctive original shape of the Fairlady. It can be installed without any modifications and is compatible with both the original calipers and the MK63 solid calipers. Enjoy safe and secure driving with this high-quality brake rotor made by a major specialist manufacturer.

Compatibility: SR311, SRL311 (all vehicles)
SP311, SPL311 (all cars)
Price: **¥45,000** (set of 2, left and right)

SP/SR311 K2 Brake Pads (KAMEARI)

Suitable for a wide range of driving conditions, from street driving to sporty driving. Braking performance is less affected by rotor temperature, ensuring consistently stable driving.

Part Number: 311Z (for genuine calipers)
Price: **¥22,000** / Front Set
*Rotor temperature range: 30-700 degrees

SR311/SP311 Street Shock Absorbers

This street-type vehicle pursues a comfortable ride without compromising ride quality.

Compatibility: SR311, SRL311
SP311, SPL311L (processing required)
Price: **¥66,000** for a set of four,
¥16,500 per tire (Front/Rear)

Part Number: KA5Z (for MK63 calipers)
Price: **¥23,000** / Front Set
*Rotor temperature range: 30-700 degrees

*The displayed price is the base price. Consumption tax will be added separately.
