

G7 Hose & tappet cover rubber packing

S54B.S54A Radiator hose

- Upper hose ¥5,500
- Lower hose ¥4,500

- The middle reinforcing mesh allows it to withstand a maximum pressure of 0.2 MPa and a wide temperature range of -20°C to 120°C, making it a highly durable product.

S54B Water Bypass Hose

This is a water hose that connects the water pump to the thermo housing.

Price: ¥1,200

Genuine product number: 14137-1101OP equivalent product

S54B.S54A G7 tappet cover rubber packing

Made from high-quality rubber with excellent resistance to oil, heat and cold. A new mold has been created and only 500 pieces will be produced.

Price: ¥8,500
Part Number: K13119-0703P

*S41 shared

PA30 G7 Tappet cover rubber gasket

Made of high-quality rubber with excellent resistance to oil, heat and cold, it will protect your car from oil leaks for a long time.

Price: ¥8,500
Part number: K13119-0705P

G7 DENSO PARTS

Chrome coil & black coil (full transistor compatible)

- Chrome coil ¥19,000
- Black coil ¥19,000

A high-performance ignition coil that is compatible with all ignition systems, including points, full transistors, CDI, and MDI. It is best matched with infrared ignition and can significantly improve spark production.

*If you use it with point ignition, you need an external resistor (sold separately). (R2.0 ohm resistor for points ¥1,500)

G7 Infrared Full Track Kit

Kit price ¥60,000

All necessary parts such as a dedicated sensor mounting bracket and a six-blade chopper are included, so it can be installed without any modification. Since it is a non-contact pickup, no adjustment is required once it is installed. In addition, the use of a high-performance infrared pickup provides stable sparks over the entire range from low to high revolutions.

G7 Low resistance plug wire

- For G7 Skyline (Gray) ¥42,800
- For G7 Skyline (Red) ¥42,800
- For G7 Gloria (Gray) ¥45,600
- For G7 Gloria (Red) ¥45,600

Compatible with all ignition devices, including points, full transistors, and MDI ignition. This plug wire is designed for Kameari use and reduces resistance to prevent ignition loss and reduce heat generation.

*Gray codes will end as soon as stock runs out.

NGK Spark Plugs

- This plug is resistant to fouling and is suitable for city driving.
