

EXHAUST MUFFLER

Cannonball muffler (all stainless steel)

The bullet shape improves exhaust efficiency, maximizing the inherent engine performance. Furthermore, it is a high-performance type that combines the sound quality, beauty, and durability unique to stainless steel and can withstand harsh usage conditions.

For late S30 and S31

For S130 (R)

* Left-side exhaust type. For early-model vehicles, body modification is required to allow for the tailpipe to escape.

For TA22

For GC210 (R)

Muffler/Octopus Legs

*The gaskets and bolts required for installation are included. Note: Installation may require modification depending on the individual vehicle. The octopus legs are made by Kameari and compatibility has been confirmed. Combination with other companies' products has not been confirmed.

Car model	DRAG Bullet Muffler (All stainless steel)					remarks
	Pipe Diameter	Tail Diameter	specification	Conformity	price	
S30	80	90	For octopus legs	~S51.6	¥175,000	*2/2 cars require extension (compatible with R200 differential)
S30, S31	80	90	For octopus legs	S51.6~	¥175,000	*2/2cars require extension. (Compatible with R200 diff)
S130	80	90	Octopus Foot	2 Seater	¥200,000	*F+IN+R set. For tuning cars intended for competitions.
S130	80	90	Octopus + Catalyst	2 Seater	¥175,000	*F+ST+Rset. Street type that can be fitted with R32-/S13-(turbo) catalyst
S130	80	90	For genuine F pipe	2 seater	¥175,000	*IN+R set. Use the genuine front pipe and remove the catalyst.
GC10	80	90	For octopus legs		¥175,000	*HT, sedan compatible type. (HT is cut at the insertion mark position)
GC210	80	90	For octopus legs		¥200,000	*F+IN+R set. For tuning cars intended for competitions.
GC210	80	90	For genuine F pipe		¥175,000	*IN+R set. Use the genuine front pipe and remove the catalyst.
P510	60	70	For octopus legs		¥170,000	*Suitable for vehicles with HR30 transmission. Modification required for standard transmission.
