

## Original suspension for competitions and vehicle inspections

**Inspection-compliant suspension features**

A variable type high-panel rate design that is unprecedented in conventional inspection-compliant products!

This is an original suspension for both street and racing use that combines sharp maneuverability without compromising the comfortable ride quality unique to uneven pitch.

**\*Strength review document included**

\*All suspensions that meet vehicle inspection standards can be installed without modification. The vehicle height is lowered by 2 to 4 cm in a well-balanced manner, and there is no play even with standard shocks.

(Note) When ordering, please specify the model, year, and (early or late) in detail.

Car model name	Model year	Model	Before	Vehicle inspection support			For competitions (playing with springs)		
			After	Rate	Vehicle height	Price for 2 bottles	Rate	Vehicle height	Price for 2 bottles
Fairlady Z (Early model)	S44/10-S48/08	S30, HS30, PS30	F	5.0kg	-4cm	¥29,000	6.0kg	-5cm	¥23,000
			R	4.2kg	-2cm	¥29,000	6.0kg	-3cm	¥23,000
