

Oil block

Product number: CONT
Compatible with: L-type, 2TG Price ¥12,000
Product number: A-CONTS
Compatible with: Type A, 4K Price ¥12,000
•Oil cooler removal (PT3/8-φ14.5L hose joint)
•Oil temperature sensor removal (M16×P1.5)
•Oil pressure sensor removal (PT1/8)
•Oil pressure sensor removal (PT1/8)

Oil block

Product number: CONTL
Compatible with: FJ20, L-type, 2TG
Price ¥15,500
•Oil cooler removal (PF3/8-φ14.5L-type hose joint)
•Oil temperature sensor removal (M16×P1.5)
•Oil pressure sensor removal (PT1/8)
*By changing the oil element to a smaller diameter, it can be used with FJ20, L-type, and 2TG.

Oil block

Product number: CONTS
Compatible with: Type A, U20, 4K
Price ¥15,500
•Oil cooler removal (PF3/8-φ14.5L-type hose joint)
•Oil temperature gauge sensor removal (M16×P1.5)
•Oil pressure gauge sensor removal (PT1/8)

Oil block

Product number: E-CONT
Compatible with: L-type, 2TG, FJ20
Price ¥15,500
•Oil cooler removal (PF3/8-AN10 for Earls removal)
•Oil temperature sensor removal (M16 x P1.5)
•Oil pressure sensor removal (PT1/8)

Oil block

Product number: E-CONTS
Suitable for: Type A, U20, 4K
Price ¥15,500
•Oil cooler removal (PF3/8-AN10 for Earls removal)
•Oil temperature sensor removal (M16 x P1.5)
•Oil pressure sensor removal (PT1/8)

Oil block

Product number: NT
Compatible with: L-type, FJ20, 2TG
Price ¥10,700
•Oil temperature sensor removal (M16 x P1.5)
•Oil pressure sensor removal (PT1/8)

Oil block

Product code: NTS
Compatible with: Type A, U20, 4AG, 4K
Price ¥10,700
•Oil temperature sensor removal (M16 x P1.5)
•Oil pressure sensor removal (PT1/8)

Earl's Joint

Product number: PF-AN10
Oil block parts
Price ¥2,400/1 piece
Size Male PF3/8-Male AN#10
(Component of E-CONT and E-CONTS)
*Conversion joint that can be used to attach Earls #10 fittings.
(Copper washer included)

Hose Joint

Product number: OB-101K
Oil block parts
Price ¥700/each
- Size PT3/8-φ14.5 hose joint
(For CONT)

Hose L-type joint set

Product number: OB-010K
Oil block parts
price ¥4,800/set
[Component parts]
φ14.5L type hose joint x 2 pcs
Single item price ¥960
Banjo bolt x 2 pcs
Single item price ¥1,200
Copper washer x 4 pcs
Single item price ¥150

O-ring

Oil block parts
price ¥360
Part number: OR-070K
•Outer diameter 70φ O-ring
(For CONT, CONTL, NTS)
Part number: OR-065K
•Outer diameter 65φ O-ring
(For CONTS, A-CONTS, NTS)

Centre Socket

Product number: OB-001K
Oil block parts
price ¥1,800
•Screw size 3/4-16UNF
(for CONT, CONTL, CONTS, NT, NTS)

Oil temperature sensor blind plug

Product number: OT-002W
Oil block parts
price ¥1,100
•Screw size M16×P1.5
(Copper washer included)

Copper washer for sensor

Product number: OT-001S
Outer diameter φ14 Inner diameter φ10.2 Thickness 1.5mm
Price ¥150
Copper washers used for water temperature and oil temperature gauge sensors are replaceable parts.

Water temperature gauge hose joint

Product number: RW-3616 (for L-type) ¥3,900
Pipe diameter 36φ Sensor M16×P1.5
Product number: RW-3416 (for 2TG) ¥3,900
Pipe diameter 34φ Sensor M16×P1.5
Product number: RW-3216 (4φ) ¥3,900
Pipe diameter 32φ Sensor M16×P1.5
Product number: RW-2816 (for A type) ¥3,900
Pipe diameter 28φ Sensor M16×P1.5
•Put a hose joint between the radiator hoses
The mechanical water temperature sensor can be removed.

Sensor extension adapter

Product number: WT-001BW
Male M16 x P1.5 - Female M16 x P1.5
Price ¥1,200
An extension adapter used when the water temperature sensor hits the bottom when installing it in the original position. It comes with washers and can be installed with a bolt-on.
Note) A-type engines use inch threads, so please use a special product.
Product number: WT-001AW Price: ¥1,200

Sensor conversion adapter

Product number: P-47W
Male M16 x P1.5 - Female M14 x P1.5
Price ¥1,300
Used when mounting an Omori oil temperature gauge with a sensor screw of M14 x P1.5 to a Kameari oil block. It can be installed with a bolt-on as it comes with a washer.

Sensor conversion adapter

Product number: P-65W
Male M16 x P1.5 - Female PT1/8
Price ¥1,580
Used when mounting an Omori oil temperature gauge with a PT1/8 sensor screw to a Kameari oil block. Comes with a washer and can be bolted on.

Sensor Drain Adapter

Product number: OT-007W
Male PF3/8-Female M16×P1.5 Price ¥1,350
Adapter for removing the oil temperature sensor from the oil pan drain cock with 3/8 thread for L-type and A-type. Includes washer. It can be installed with a bolt-on.
Depending on the vehicle model and height, attention must be paid to safe ground clearance.

Relay nipple

Product number: P-165K
Male M10 x P1.25 - Male PT1/8
Price ¥1,200
Components for reinforced flexible pipes for oil pressure gauges and reinforced stainless steel mesh hoses for fuel pressure gauges.
